AROUND the TOWNSHIP

WPA workers have been accused of practically everything under the sun, but the latest report is that they have become echo-chasers. It seems that there is a little echo in the auditorium of the Alvarado Grammar School that has been causing Principal J. C. Wasley considerable perturbation and WPA crews are at work this summer to install sound-proof materials that will annihilate the pest.

Incidentally they are doing an \$8,000 improvement program, re-finishing the interior and exterior of the building and improving playground and gardens.

Several thousand persons, gathered from every part of the United States and from many parts of the world will receive and carry home with them some vital facts concerning Niles and Washington Township that may have far reaching results and redound to the general benefit of this area.

Next week, the convention of the United States Junior Chamber of Commerce will convene in Oakland for five days. A Niles committee has been busy gathering mementos for the occasion with the assistance of township industries. Other Junior Chamber groups are planning to tell the world.

And, when the Rotary International convention opens in San Francisco June 19 for six days, the Niles Club will be on hand 100 percent and most of the countryside and world travelers will know of it.

Opportunities like these two occasions are worthy of an organized effort on the part of progressive nearby communities to cash in on them in a big way. More power to these township groups!

The job is half done and the time is nearly gone.

Between now and June 30, the county prorate committee will have its hands full in completing the apricot grower canvass. Growers can be of assistance, if they favor the prorate program, in hunting up the volunteer workers and jotting down their name on one of the petitions asking that it be set up. Joseph Shinn, Jr. is in charge of the sign up.

Assistant Chief Clarence Crane is doing a speedy job of swishing the new Niles fire truck around the corners during these days of grass fires that get out of control.

Last week a watch was held on him and it was exactly five minutes from the time the receiver was taken off the hook at the Niles Home, south of town, until the engine was subduing a grass fire across the way.

The Toyon Berries assisted with cold drinks, white elephants and novelties. Decorations were arranged by Mrs. Lawrence Bunting and Mrs. George C. Roeding, Jr.

Brother Of John Kimber Announces For Congressman

NILES—George C. Kimber, of Sacramento, brother of John Kimber of Niles, is a candidate for Congress from the Third District, running in opposition to the incumbent Frank H. Buck.

Kimber's platform includes the following four planks: Clean government, immediate payment of reasonable old age pensions on a pay as you go plan instead of on deferred basis, tariff protection for California agriculturists and poultrymen and the introduction of a scientific plebiscite to determine the wish of constituents on all major issues.

Kimber states he is personally interested in obtaining fairer treatment for California agriculturists from Washington and specifically in immediate tariff protection against ruinous foreign competition for poultrymen and fruit growers.

Kimber states he is personally won other high honors from his alma mater, Stanford University. He is an instructor at the Sacramento Junior College and while he has taken part in community projects of civic importance has heretofore not been actively interested in politics in the sense of being an office-seeker.

ASK PATRONS TO RECONSIDER RURAL MAIL RECEPTACLES

NILES—Unserviceable and unsightly rural mail boxes both retard the delivery of mail and detract from the natural scenic beauty of the highway. Particularly to be deplored are the nonregulations, old type, top-opening boxes, as well as makeshift receptacles which expose mail to the elements.

It is the desire of the postoffice department not only to correct the unsatisfactory situation but to encourage all rural mail patrons generally to possess pride in their boxes, both in the manner of erection, neat stenciling, and tidy appearance.

To help accomplish these desirable objectives the department is designating the week of August 1, as "Clean Up Rural Box Week."

Newark Firemen Award Trophy To Contest Winners

NEWARK—Richard Tuchsens, son of Mr. and Mrs. V. Tuchsens of Newark, won the \$12 trophy offered by the Newark Fire Department in the essay contest at the grammar school. A second trophy, donated by officers of the Alameda County Firemen's Association who acted as judges went to Walter Texera. These awards were made at the class night exercises at the school Wednesday night.

Richard is 11 years of age and is in the sixth grade. His essay included the following: "A Volunteer Fire Department is a credit to a community because it saves lives, homes and money; it instills good fellowship among fellow citizens; it creates a spirit of fire prevention in a community; it consists of men who give their time and life if necessary to the safety of others without compensation and it sets a high standard as an example for the rest of the community to follow."

Walter is 14 years of age and is in the eighth grade.

Judges were Chief Frank Sandy of Oakland, Chief Tom Lane of Alameda, Chief Crawford Letham of Pleasanton, Assistant Chief Clarence Crane of Niles, Chief Matt Whitfield of Mission San Jose, Assistant Chief Frank Madruga of Centerville. The essays were judged at a dinner given by the Newark Fire Department at Butler's Hotel with 25 present.

Other visitors were Chief Joe Corey of Irvington, Supervisor George Hellwig, Principal Jack MacGregor of Newark, Fire Commissioner Fred Muller of Newark, President Sam Scott of the Junior Chamber of Commerce, and Glen Pierce, president of the Alameda County Fair Association.

Chief Joe Pashote and his committee had charge of the affair. There was a discussion regarding a countywide essay contest, Niles having already sponsored a similar program.

Township Women Told Details Of Techachapi Prison

CENTERVILLE—An interesting description of the State women's prison at Tehachapi near Bakersfield was given by Mrs. Frank G. Law, club woman and member of the board of directors of Tehachapi, at a meeting of the Country Club of Washington Township Tuesday.

Mrs. Law stressed the rehabilitation program at the prison which made it possible for inmates to make themselves attractive clothes, have permanent waves and use cosmetics. A motion picture show is given occasionally and inmates are taught laundry, sewing, gardening, etc., not only to fit them for positions when they are released but to put the institution on a self-supporting basis.

She advocated the parole system, claiming that it did much to give the released inmates a better chance to become adjusted to society when their terms had been completed. She stressed the merit of character-building programs, playgrounds, etc., to keep girls out of penal institutions, stating that prevention was always cheaper than cure.

Inmates at Tehachapi range in age from 19 to 78 years of age. Out of 2,297 men and women on parole in California last year, 77 were violators because of being second offenders and 61 for disobeying orders of parole officers, or a total of 138 out of the 2,297.

She said that the three-fold policy at Tehachapi was first, to safeguard society, to rehabilitate inmates and to make the institution self-supporting, having the taxpayers cost of taking care of offenders.

Musical numbers at the meeting were furnished by Mrs. Ruth Roe, clarinetist, accompanied by John Kimber, pianist and piano duets by Mr. and Mrs. Dwight Thornburg. Mrs. George Bonde reported on the coordinating council and a letter from Mrs. T. N. Alexander who attended the national federation was read.

Mrs. William Sloan was appointed to do the typing of the second volume of history of the township being collected by the research committee headed by Mrs. J. E. Thane.

Apricot Prorate Sign Up In County Half Completed

NILES—Reports on the apricot prorate program were given at Monday's Chamber of Commerce meeting by Joseph Shinn, Jr., director of the move to bring about better quality of fruit on the market, advertising and sales promotion of the apricot industry.

With more than 50 per cent of the Alameda County growers already signed up, Shinn expressed confidence that the prorate would be established. He explained that the program was being promoted under a law passed in 1933, originally designed to curtail production of agricultural products.

The apricot prorate seeks to curtail only the sale of inferior dried fruit, he said, such as the removal of culls including fruit spoiled with sand, dirt, mold, insect infestation, rotten fruit or green immature fruit. He pointed out that a certain amount of regulation was possible by the government through the pure food law but that the cost of gathering, packing and transporting by growers before the fruit reached the market more than off-set the \$1 per green ton asked by the prorate for the purpose of nationally advertising apricot products.

Due to the fact that 99 per cent of the dried apricots and 95 per cent of all apricots come from California, the control of the market would be easy, it was stated.

George C. Roeding, Jr., displayed a sketch of a suggested pictorial sign directing pleasure seekers to the recreational facilities of Niles Canyon. Cost of the sign will be reported next week by the committee composed of Roeding, E. F. Glassbrook and George Bonde.

The secretary was instructed to write the company from which the electric highway signs were bought that certain changes would have to be made in the lighting before further payments were made.

In the absence of W. B. Kirk, president, George Bonde presided at the meeting.

Orderly Walk Out Closes Plant Of California Pottery

NILES—Negotiations between the management and men at the California Pottery Company here culminated in a strike Friday morning when 26 men walked out. Since this time C. I. O. pickets have been stationed at the plant which is shut down.

According to George Mays, superintendent, the company has reached agreement with the men regarding wages, hours and union status but the strikers ask for the hiring hall privilege on a basis of seniority. The company agrees to hire only union men but reserves the right to select men suited for the work for which they are hired. About two months ago 25 men were laid off because of slack work, but strikers state this has nothing to do with the present situation as it took place before negotiations began.

Strikers are members of the Clay Workers Union, Local 319, affiliated with the International Union of Mill, Mine and Smelter Workers, C. I. O.

No disturbance has been reported and no shipping through picket lines has been attempted.

THE JOKE IS ENDED

After 12 years of mirthless laughter, Charles Vance Millar's little joke is ended. From the grave, the Toronto millionaire has had his laugh, has seen his "Stork Derby" place a dollar sign on motherhood.

For now at last the "Stork Derby" is a matter for history. Richer by \$100,000 each, four mothers may now settle down to the business of mothering their 36 prize-winning offspring. A sign marked \$400,000 on a batch of 36 boys and girls, that works out to about \$11,111 on a piece basis, or \$66,666 if you take a half dozen.

Millar, who left stock in race tracks to Toronto's ministers and brewery stock to prohibitionists, would have liked that paradox—placing a price tag on the most priceless thing in life. From beyond the grave the eccentric millionaire has had his last laugh, a laugh not echoed by those millions of parents who find in their own children a treasure too precious for any dollar signs, big or small.

WHAT HAPPENS?

What happens when the bank won't let you borrow any more money on your house, your business, your car, or your personal note? Translated into national figures, that's a question the federal government is trying to answer, a question it must answer in the near future.

With a \$6000 million deficit looming ahead in the coming fiscal year, federal financial experts predict a total national debt of \$42,000 million within the next twelve months. That's within a few million dollars of the \$45,000 million limit on federal debt set by act of congress.

What happens when you can't live within your means and can't borrow any more? You have to change your way of living and live within your means. What happens when a government can't live within its means and can't borrow any more? Only the future will tell!

Lots of folk expect too much from me

"Back in jolly old England a tea kettle is treated with some respect. A tea kettle is kept to its traditional use of boiling water with which to make a 'spot o' tea.' But here in the good old U. S. A. there are folk who make me boiling mad. They expect too much from me.

"To my way of thinking, hot water should come a-running from a pipe when silken dainties are due for washing, when the family dog is to be soaped and scrubbed, or a little boy's hands need whitening up, or a little girl's hair is to be shampooed to silky softness." signed TOMMY TEAKETTLE

Heating water in a tea kettle is expensive. More heat escapes into the kitchen than goes into the water. But hot water from an Automatic Gas Water Heater, where water is kept stored hot in an insulated tank is very low priced hot water service. Today you can buy an Automatic Gas Water Heater for your home for as little as ten cents a day. Then you will have hot water service that is faithfully yours 24 hours a day, for bath, showers, dishwashing, cleaning, and a score of other conveniences.
